

HOUSE OF APOLLON

Great Dane
National Breed of Denmark

AKC STANDARDS - *english version*

GREAT DANE

This is the Great Dane standard issued by

The Kennel Club (UK)

A Breed Standard is the guideline which describes the ideal characteristics, temperament and appearance of a breed and ensures that the breed is fit for function. Absolute soundness is essential. Breeders and judges should at all times be careful to avoid obvious conditions or exaggerations which would be detrimental in any way to the health, welfare or soundness of this breed. From time to time certain conditions or exaggerations may be considered to have the potential to affect dogs in some breeds adversely, and judges and breeders are requested to refer to the Breed Watch section of the Kennel Club website here <http://www.the-kennel-club.org.uk/services/public/breeds/watch> for details of any such current issues. If a feature or quality is desirable it should only be present in the right measure.

GENERAL APPEARANCE

Very muscular, strongly though elegantly built, with look of dash and daring, of being ready to go anywhere and do anything. Head and neck carried high, tail in line with back, or slightly upwards, but never curled over hindquarters. Elegance of outline and grace of form most essential.

CHARACTERISTICS

Alert expression, powerful, majestic action displaying dignity.

TEMPERAMENT

Kindly without nervousness, friendly and outgoing.

HEAD AND SKULL

Head, taken altogether, gives idea of great length and strength of jaw. Muzzle broad, skull proportionately narrow, so that whole head when viewed from above and in front, has appearance of equal breadth throughout. Length of head in proportion to height of dog. Length from nose to point between eyes about equal or preferably of greater length than from this point to back of occiput. Skull flat, slight indentation running up centre, occipital peak not prominent. Decided rise or brow over the eyes but not abrupt stop between them; face well chiselled, well filled in below eyes with no appearance of being pinched: foreface long, of equal depth throughout. Cheeks showing as little lumpiness as possible, compatible with strength. Underline of head, viewed in profile, runs almost in a straight line from corner of lip to corner of jawbone, allowing for fold of lip, but with no loose skin hanging down. Bridge of nose very wide, with slight ridge where cartilage joins bone (this is a characteristic of breed). Nostrils large, wide and open, giving blunt look to nose. Lips hang squarely in front, forming right angle with upper line of foreface.

AKC STANDARDS - *english version*

EYES

Fairly deep set, not giving the appearance of being round, of medium size and preferably dark. Wall, or odd eyes permissible in harlequins.

Ears

Triangular, medium size, set high on skull and folded forward, not pendulous.

Mouth

Teeth level. Jaws strong with a perfect, regular and complete scissor bite, i.e. upper teeth closely overlapping lower teeth and set square to the jaws.

Neck

Neck long, well arched, quite clean and free from loose skin, held well up, well set in shoulders, junction of head and neck well defined.

Forequarters

Shoulders muscular, not loaded, well sloped back, with elbows well under body. Forelegs perfectly straight with big flat bone.

Body

Very deep, brisket reaching elbow, ribs well sprung, belly well drawn up. Back and loins strong, latter slightly arched.

Hindquarters

Extremely muscular, giving strength and galloping power. Second thigh long and well developed, good turn of stifle, hocks set low, turning neither in nor out.

Feet

Cat-like, turning neither in nor out. Toes well arched and close, nails strong and curved. Nails preferably dark in all coat colours, except harlequins, where light are permissible.

Tail

Thick at the root, tapering towards end, reaching to or just below hocks. Carried in straight line level with back, when dog is moving, slightly curved towards end, but never curling or carried over back.

Gait/Movement

Action lithe, springy and free, covering ground well. Hocks move freely with driving action, head carried high.

Coat

Short dense and sleek-looking, never inclined to roughness.

AKC STANDARDS - english version

Colour

Brindles: must be striped, ground colour from lightest buff to deepest orange, stripes always black, eyes and nails preferably dark, dark shadings on head and ears acceptable.

Fawns: colour varies from lightest buff to deepest orange, dark shadings on head and ears acceptable, eyes and nails preferably dark.

Blues: colour varies from light grey to deep slate, the nose and eyes may be blue.

Blacks: a) Black is black.

In all above colours white is only permissible on chest and feet, but it is not desirable even there. Nose always black, except in blues and harlequins. Eyes and nails preferably dark.

b) Mantle: Black and white with a solid, black blanket extending over the body. Ideally - black skull with white muzzle, white blaze optional, whole white collar preferred, a white chest, white on part or whole of the forelegs and hindlegs, white tipped black tail. Nose always black, eyes and nails preferably dark

Harlequins: pure white underground with preferably all black patches or all blue patches, having appearance of being torn. Light nails permissible. In harlequins, wall eyes, pink noses, or butterfly noses permissible but not desirable.

Size

Minimum height of an adult dog over eighteen months: 76 cms (30 ins); bitches: 71 cms (28 ins). Weight, minimum weight over eighteen months: dogs: 54 kgs (120 lbs); bitches: 46 kgs (100 lbs).

Faults

Any departure from the foregoing points should be considered a fault and the seriousness with which the fault should be regarded should be in exact proportion to its degree and its effect upon the health and welfare of the dog and on the dog's ability to perform its traditional work.

Note

Male animals should have two apparently normal testicles fully descended into the scrotum.
